

I benefit from the traffic in an unusual way. My wife Carol and I are both blind, we listen to XM radio mostly for music. helps is that weather is right at our ffinger tips. The traffic helps us because we travel mostly by Access Transportation. When we listen to the up to the minute traffic reports we can figure if our bus will probably be late. This is a paying service and I really strongly believe it shouldn't be taken away.

another way XM helps is that when we need the weather, it's right at ou
